**Interactions with American Chemical Society [ACS]**

**08 January, 2024**

**11.00 AM**

**ONLINE/ FERMION**

***Mr. Rajesh Parishwad,***

*Senior Associate Director,*

*Global Strategy for Society Programs*

**An Introduction to ACS**

The presentation will provide a brief overview of the initiatives undertaken by the American Chemical Society [ACS] in India and worldwide. The talk aims to shed light on the significant impact that ACS, as one of the world's largest scientific societies, has on the community. The discussion will emphasize ACS's commitment to disseminating the societal essence and enhancing people's lives through the transformative power of science.

*Global Editorial Strategy, ACS Publications*

**Tips on Scholarly Publishing**

This session promises interactivity, with a key emphasis on empowering attendees to compose high-quality manuscripts. This involves insights into formulating effective titles, abstracts, and manuscript flow, along with an exploration of the resources available at ACS for conducting science ethically, effectively, and efficiently. Furthermore, participants will have the opportunity for direct conversations on non-traditional career paths within STEM.
