

OPEN TALK ANNOUNCEMENT

8 January 2014

3:00 pm

Fermion

Speaker:

Dr. Kuldeep Kumar

(VASP Short Term Visitor to Prof. Rabin Banerjee)

Affiliation:

Department of Physics, Panjab University, Chandigarh

Title:

Some preliminary studies of chiral magnetic effect

Abstract:

A preliminary introduction to the idea of chiral magnetic effect will be given, in which an imbalance in the number of left- and right-handed particles gives rise to an electromagnetic current and charge separation along the external magnetic field.
