### TITLE

Acharya Prafulla Chandra Ray:  
Why his Legacy Relevant Today

### ABSTRACT

Acharya Prafulla Chandra Ray, the father of modern Indian chemistry, is one of the towering figures of pre-independent India. He was a scientist, educationist, rationalist, entrepreneur, social reformer and patriot all par excellence. While his work greatly impacted the contemporary India, his thoughts are critically important even today in the midst of the new challenges. This talk will provide a bird's eye view of the life and work of Acharya P.C. Ray, with a particularly emphasis on his vision for India.

### SPEAKER

Prof. B. N. Jagatap is the Chairman, Governing Body of Satyendra Nath Bose National Centre for Basic Sciences. He is also the Chairman, Research Council of the National Institute of Science Communication and Policy Research, New Delhi.

S. N. Bose National Centre for Basic Sciences  
Block JD, Sec III, Salt Lake, Kolkata 700106
