

TALK ANNOUNCEMENT

14 January 2016

10:30 a.m

Fermion

Speaker:

Dr. Xueyong Wei

Professor, Mechanical Engineering, Xi'an Jiaotong University

Title:

Exploring nonlinear phenomena in micromechanical resonators/oscillators

Research Interest:

Dr. Wei's research interests include Micro/Nanofabrication, MEMS Sensors and Oscillators, and Lab on a chip. He has published more than 40 papers in the international journals and conferences. He is the recipient of UNIVERSITAS21 PhD Scholarship (2008), F. K. Bannister Prize (2009) in the University of Birmingham and "Youth Thousand Talents Program" in China (2012).
